

Pitch Deck Short

milKit – Sport Components Ltd

February 2021

Our vision is to become the market leader for tubeless systems – the wheel standard of tomorrow

TUBELESS IS BECOMING MAINSTREAM IN CYCLING

PAST

- Niche market
- Market controlled by distributors

TODAY

- Bike manufacturers want tubeless solutions
- Strong movement from distributors to online and direct sales

MILKIT IS READY TO CAPITALIZE ON THE MARKET OPPORTUNITY BY:

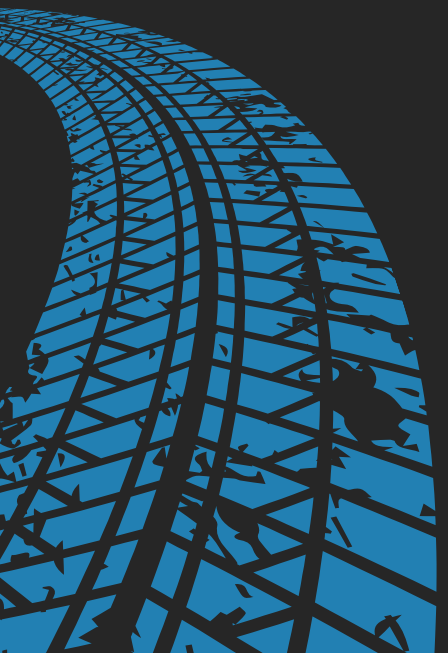

1. Providing bike manufacturers with the best tubeless solution at a competitive price.
2. Building up own distribution channels and selling directly to customers.

TUBELESS TECHNOLOGY

Tubeless is the standard for car tires and it's now coming to bicycle tires as well

- No more flats
- Better traction feeling for ground surface
- Lighter and less rolling resistance

Bicycle tubeless tires are thin and fragile. A latex sealant keeps them airtight.

- Sealant dries up after a while
- Handling sealant is messy
- Installing tubeless tires is time consuming

We take the mess out of tubeless:

our highly innovative products make the use of tubeless products clean and easy
